

## Doctor You

### 1. baffling jargon

baffle:confuse

jargon:words and expressions used by a particular group

### 2. boil over

①rises to the brim of a container

② someone cannot control his emotions and feelings,and becomes violent

### 3. bestow

give,present

### 4. diagnosis

a discovery about what is not correct ;a finding of which something is not running well

### 5. cognitive

relating to mental activities such as learning,understanding

E.g. Some think that changes in how quickly a person swipes a phone's touch-screen might signal the onset of cognitive problems.

有人认为一个人刷手机屏幕速度的变化有可能是对于认知疾病开始生根的警醒。

### 6. stem

①originate

e.g. A final benefit of putting patients in charge stems from the generation and aggregation of their data.

让病人做自己疾病的主人的最后一个好处来源于这些数据的集中汇合。

②stop,prevent

## **7. pitfall**

a likely mistake or problem in the situation

e.g. As with all new technologies, pitfalls accompany the promise.

对于所有的新兴技术来说，好处与坏处的并存的。

## **8. disproportionately**

a state that two things are unequal

e.g. The benefits of new technologies often flow disproportionately to the rich.

新技术的优点对于富人来说总是不相称的。

## **9. mitigate**

relieve, alleviate

## **10. breach**

break(the law,the principle...)

e.g. Health firms should face stringent penalties if they are slapdash about security, but it is naive to expect that breaches will never happen.

康复公司若对安全性有所疏忽，则将受到严格的处罚；然而期望这种违规情况完全不出现的想法也是愚蠢的。
